THE CASE FOR GREECE. In view of the excitement in Athens over

the suggested reforms in Crete, the critical situation in Macedonia, and the German official protest against any separate settlement of the Cretan question likely to disturb the status quo, the case for the Greeks deserves to be understood, for of late the Græco Bulgarian conflict in Macedonia has produced not a few critics who seem to consider that the Greek nation is in this case the provoker. We will take the Cretan question first, as that has reached a delicate position and is more closely associated with Hellenic aims. The four protecting Powers, Great Britain, Russia, France, and Italy, a few weeks ago, under pressure of the constant and unanimous Cretan demand for annexation to Greece, and under the threat of Prince George of Greece, the High Commissioner, to resign, formulated a reform scheme professedly put forward to satisfy, as far as possible, the aspirations of the Cretan people. This project of reform, as a whole, has created immense disappointment, or even indignation, throughout Greece and Crete, and the Powers have now intimated to the Greek Government that they are considering a modification of the scheme. Briefly, the reforms provide for:
(1) the creation of a Militia, the withdrawal he Italian officers from the Gendarmerie, and the appointment of Greek Army officers to command the whole, provided these officers are struck off the active list of the Greek Army; (2) a qualified promise of the evacuation of the island by the foreign troops at a time not specified; (3) the extension of the financial ontrol Commission at Athens to embrace Cretan finance; and (4) the right of the Consuls of the protecting Powers to supervise the acts of the High Commissioner's Ministers or Councillors. And all this in the interests of order in Crete and of the protection of the Moslem minority. There are other minor points. The Greek objections to these reforms may

be stated thus: In the first place the world acknowledges Greece's pre-eminent ethnographical, geographical, and historical claims in Crete. The appointment of a Greek Prince High Commissioner after the Greeco-Turkish War proves that. Again, the entire Cretan population is Hellenic. Out of some 33,000 are Mohamedans, even these are Greek and speak only Greek. Then, again, Crete has proved that there is no

have been quiet, and Greece has loyally urged peaceful acquiescence in the régime of the last eight years, firmly believing that union with Greece would be the reward of such an attitude There is no more Moslem trouble in Crete than there is in Thessaly. Prince George would not countenance it. King George, again, is one of the most enlightened of Euro pean rulers, and most liberal and kindly minded, and all his efforts have been and wil be towards complete harmony in the island. Take Thessaly. So amicably do the Greeks ive with Mohamedans there that Thessaly actually sends deputies of the Moslem faith to the Athenian Chamber. It is in this spirit that Moslems have been appointed to various offices in Crete by the present High Commis Thus if there is every evidence of assured tranquillity and harmony, provided that foreign intriguers cease to have the preent reason for meddling in Cretan affairs, why do the Powers delay to grant union with the motherland? Why do they pre sent reforms which are calculated to wound both Greek and Cretan amour propre, and to defer annexation indefinitely, and which will if put into force fling the whole Cretan question back into the miserable position from which it has emerged? The fact is the British Government would grant annexation, but cannot accord it alone. Italy is not too friendly to Greece, having aspirations in Epirus, Albania, etc. France is compelled to please Russia now as much as ever. Russia will always oppose Greek aims. And now Germany, who withdrew from the Cretan complication years ago, officially pronounces against the proposed reforms, not from a Greek point of view, but because she declares then calculated to hasten annexation, and wishes the status quo to be maintained. Of course neither Greece nor Crete can

Christian versus Moslem question under free

institutions-in fact since the appointment of

Prince George absolute tranquillity would have resulted had it not been for the intrigues

of certain interested Powers. And the Cretans

oppose the will of the Powers. If the Powers cannot grant annexation now they at least have no reasons for rendering it more difficult in the near future. Greek sentiment would be satisfied if the Greek officers be not compelled to quit the Greek Army, that being considered an unjust demand, debarring them from their legitimate military ambitions in the Mother Country; it would be satisfied if Cretan finance be left to Cretans—the International control of the Greek finances is humiliating to a proud people; it would be satisfied if the foreign Consuls, as in any other country, be confined to making any representations their Governments may consider necessary to the High Commissioner—whereas the new proposal cannot but undermine his authority. word, union is the only fair thing for both parties. If union be deferred indefinitely, or if the suggested reforms be carried through, the Cretan trouble will recommence. But let us say it has no possible connection with the the Macedonian question, as the German Press now pretends

As regards Macedonia the facts are as follow:

There was no Macedonian trouble until four years ago. Macedonia is largely Hellenised, but it has for some decades been subject to a Bulgarian propaganda, the Bulgarians being determined to oust the Greek element in readi-ness for possible eventualities. Four years ago the Bulgarian propaganda assumed the form of force—until then it had been social, educa-tional, political, or religious, as you like. Armed bands were formed under the eyes of the Bulgarian Government in Sofia and in other Bulgarian towns, and despatched to Macedonia to persecute the Greeks and Bulgarise unprotected villages. Within a year or two over ne thousand Greeks, men, women, and chil dren, were brutally done to death by these Komitadjis. The Greek Government protested time after time to Turkey and to the Greek Powers. Nothing, or next to nothing, has been done to stay the Bulgarian atrocities. British Blue-books give a long list of the massacres, village by village. Hitherto the Greek Government endeavoured to assist the Powers, policed the Græco-Turkish frontier, and ordered the Greek Consuls to prevent the local formation of Greek armed bands. But short of a Chinese wall or the total prohibition of all peaceful transit between Greece and Macedo nia, no Army that even greater military Powers than Greece could provide could wholly prevent the passage of adventurous patriots resolved to avenge their kith and kin.

The Greeks smart under the loss of children, brothers, womenkind, schools, and churches. It is only recently that they have commenced to retaliate. And now, when the Bulgarians have begun to discover that Macedonia is not Bulgarian, they have commenced to murder Greeks in Bulgaria itself. Last year it was Rumania, now it is Bulgaria. Everything points to concerted action between the two States, All these recent barbarous acts, notably in Philippopolis, Tatar-Bazardjik, Peristera, Stenimaka, Burgas, and Anchialos, show the race hatred for Greece owing to her preponderance in Macedonia. This is the Hellenic view held in Athens to-day. It is not a religious question, although the Greek Patriarch regards the Bulgarian Orthodox as schismatics It is a race question, Slavs versus Hellenes. Who is responsible? The Great Powers undoubtedly. And how will it end Unfortunately armed intervention would appear to be the only proper remedy.

Judgment was postponed in order to hear the prosecutor and his witnesses, who are at present absent from Cairo.

"The Rising Nile."

The military band performance which was held on Tuesday night in the Esbekieh Gardens was made notable by a new and welcome feature - a march entitled " The Rising Nile, " composed by Lieut. Col. J.D.F Donegan, whose songs are known to many of us. The march is a most lively and harmonious composition and is written in excellent marching time. The band of the 2nd Royal Innis killing Fusiliers did full justice to it, and their performance and its own merits gained a well-deserved encore. We hope to hear it again, not once but often, and that it will not be the last of Lieut.-Col. Donegan's composi tions with which we shall be favoured.

THE LATE CHERIF PASHA.

FUNERAL IN CAIRO.

The body of the late Mohamed Pasha Cherif arrived at Cairo by special train from Alexandria at a quarter to eleven on Tuesday night and was conveyed directly to the deceased's palace in Sharia el Dawawin, accompanied only by his relations and a few intimate friends Yesterday afternoon the friends and acquaintances of the late Under-Secretary of State for Foreign Affairs were received at the palace previous to the funeral ceremonies.

Large crowds had collected in the streets to witness the passing of the sad procession and within the courtyard and the hall of the palace the servants and numerous friends had assem bled preparatory to accompanying the defunc to his final resting place. Among these were all who had served with him in his public life who are at present in Cairo, and representatives of all the Consulates, public offices, and many private triends.

The funeral convoy left the palace at a quarter to five and proceeded direct to Imam el Sefai, where the body was laid to rest. The respect in which the deceased was held was made evident not only by the large number who accompanied the procession, but by the crowds which lined the route to the cemetery and paid their last silent homage to a once popular public servant.

INVESTMENT.

EXTENSION OF SPHERE OF OPERATIONS.

The ordinary general meeting of the Egyptian Delta Land and Investment Company, Ltd., was held last Thursday at Winchester House, Old Broad-street, E.C., Sir Auckland Colvin, K.C.S.I., K.C.M.G., C.I.E. (the Chairman of the com-

pany), presiding.

The Secretary (Mr. F.J. Horne) having read the notice convening the meeting and the

auditor's report,

The Chairman said: The report and accounts before us, which I presume you will take as read, are for half a year only, for which I prepared you at our general meeting in December last, and though I shall be happy to explain them so far as I am able, I wish to pass from them to a more general description of our position, in which I must review the whole period of the company's existence. I shall not detain you by again going over the ground covered by our recent extraordinary meeting, when you sanctioned the resolutions, which will be put to you for confirmation immediately after the close of this meeting, but I have still to ask you to realise that the whole status of our company has been materially changed from that on which it was started in 1904, with a comparatively small capital of £100,000 under the auspices of the Egyptian Delta Light Railways. Under our original conditions we effected some very good purchases, and were encouraged to increase our capital, but I pointed out to you at our last general meeting that the prices of land in our particular sphere of operations had risen so rapidly that we hesitated to buy further. We have since that time been ab'e to acquire other properties, notably the valuable properties of Les Moulins François d'Egypts, but in some cases we have had to depart from the letter of our original intentions, so far as our memo randum and articles of association permitted, and you can readily understand the serious disadvantage under which we laboured in having keen competition in our own limited sphere of operations, without being able to enter into business outside of it. I am pleased to be able to state that although we thus suffered in what I will describe as a restricted quantity of business, we made up for it in quality, and I take this opportunity of mentioning that great oredit is due to Captain A. Adams, R.E. for the selections of land purchased by him in his dual capacity of agent and general manager of the railways, and of manager of this company in Egypt. We can hardly hope to repeat such bargains, and though time is necessarily taken up in developing or disposing of these properties, so as to bring profits to account, we can claim that such profits have been found to have continuously grown in amount.

Satisfactory Land Sales.

Following the preparations which I told you we were making, we have held a sale of plots of land for building purposes on an estate of about 1,800,000 square metres, say 430 feddans or acres, which we own in the proximity of Cairo, and though the results do not appear in the accounts before you, the sales having been held at and after the close of the period, they proved highly satisfactory and continuously improving. Other profitable sales have also been effected, but do not for the same reason appear in these accounts. I shall have to refer to them later, but mention them here in support of what I have said. The time has now arrived when it is very necessary for us to extend our sphere of operations in order to avail ourselves more generally of the oppor-tunities which offer in Egypt and the Sudan. The arrangement of this involved the severance of our connection with the Delta Light Railway Company-to the regret of both companies I may say-whose memorandum of association did not permit of their reserve funds even being invested in a land company whose business is thus unrestricted. Subject to the consent of the Court, we became an independent Land and Investment Company by your to-day confirming the resolutions to this end. We shall continue to extend to the railway company its right to purchase lands from us to meet its own requirements on special terms, and must give due consideration to any representation they may make to us in conse mence of the severance of the connection between the two companies. In the early part of this year we availed ourselves of the presence in Egypt of one of our London directors to carefully consider our future methods of business. Valuable properties were then purchased. Our Board in Egypt was strengthened by the nination of Mr. J. W. Williamson, of Cairc, thereto, and we shall proceed to appoint one or two directors, as soon as we decide upon the most suitable gentlemen, as further additions to that section of the Board. In some matters we are necessarily and greatly dependent upon the recommendations of the Board in Egypt, and we wish to feel that such are based upon wide consideration.

The Question of the Staff.

The question of our staff was also gone into on the spot. I had prepared you for additional appointments being made thereto, but the more extended consideration of this matter was forced upon us by the threatened recall of Captain Adams to India, and now by our separation from the railway company. Captain Adams's services were finally and wholly transferred to the Egyptian Delta Light Railways, general cargo, left Manchester on the 22nd Ltd., in the winter of 1905-6, and we had to consider the question of his successor. It had in the first line of such article. been evident to us that we were at a disad-The Messageries Maritimes S.S. Portugal vantage, as compared to other land companies, there be substituted therefor the following in only having such time and attention as article: -"The remuneration of the directors could be devoted to our affairs by a staff who, shall be the sum of £250 per annum to each of

required that we should have a staff of our own. With the consent of the Delta Rulways, we appointed their chief engineer as our manager, and he-Mr. J. W. Peacock -accordingly resigned the former appointment, and took up his duties as our manager in February last. Since that time the necessary staff of our own has been got together, favourable purchases and siles have been effected, as I have already stated, and the active prosecution of our business undertaken. It was not to be expected that much result could come into the period ended 31st March last, or, in other words, into the report and accounts before you. As a matter of fact, no sales are entered, as none had been completed within the period. Per contra, our working expenses were only increased by the inclusion of a staff of our own for quite a short time, and the small balance of profit may simply be regarded as the excess of rents and interest received over our charges for working. As more correctly indicating the benefits to us of the changes made and the business done, I will state that, subject to their due completion, the result of sales effected between the 1st April and the 30th June is a profit to us of at least £50,000, and we have reason to hope that such sales will now proceed continuously. We regard it that our position and prospects would be sufficient to justify us in recommending the payment even now of an interim dividend on account of the current year, but purchases and sales of land in Egypt are usually made by a system of deferred payment, and there is an objection to anticipating the realisation of these instalments. I prefer to ask you to exercise a little patience nd look forward to the accounts of the current year showing a substantial dividend, which they should do if all goes well. With reference t the proposal to increase this company's capital which was intended to be put to you, it has been represented to us by our legal advisers that as it was not our intention—as publicly stated by me-to make an issue before calling a meeting to consider the objects thereof, there is no advantage in taking powers to increase our capital now instead of at a later date, so as the probability of our now requiring more money is not clear this proposal will be further postponed. The Board's General Policy. In conclusion, I offer you a few remarks upon our general policy. We are a land and

officials, and attention to our increased business

and the development and sales of our proporties

investment company, our moneys raised consist of capital and of premia on shares. We may well expect such premia to equal or even exceed our capital. At present our moneys are nearly wholly invested in land purchases ; but we propose to confine these-in course of time -practically to capital moneys, and from our premia to invest amounts at least equal to our capital in sound mortgages, in buildings and such things as supplies of light and water. On these latter we feel we can get good returns for our money, and though not so profitable as dealings in land have been in the past, it safeguards us against reaction or cessation of profitable purchases. Before moving the adoption of the directors' report and accounts I shall be pleased to answer any questions which shareholders may wish to ask. (A pause). As no questions are asked, I now have to move the following resolution :- "That the report of the directors, dated 27th July, 1906, together with the audited statement of accounts and balance sheet for the half-year ended 31st March, 1906, be and they are hereby received,

approved and adopted." (Applause).

Mejor W. I. Le Breton seconded the resolution, which was carried unanimously.

Major Le Breton next moved the re-election

of Sir Anckland Colvin as a director.

Major-General H. J. Hallows seconded the

notion, which was unanimously agreed to. The Chairman moved the re-election of Baron J. de Menasce, of the Egyptian Board, as a director.

Major Le Breton seconded the resolution, which was agreed to.

Mr. J. H. Busby moved the re-election of Messrs. Meredith and Co. as auditors of the

company for the ensuing year.

Mr. W. Baker seconded the motion, which was put and carried.

The Chairman: I now move that the following nine resolutions, which were passed at an extraordinary general meeting held 19th July, 1906, be confirmed as special resolutions :-

That the memorandum and articles of association be varied as follows :-

1. By striking out from section 3, subsection (a) of the memorandum of association the words "in any district," and by substituting for the words "in which the railways belonging to or that may at any time hereafter belong to the Egyptian Delta Light Railways, Ltd., or any extension or branch thereof existing or h'en souffle pas mot. Ainsi en est-il de la plur constructed or proposed structed, may serve or be intended to serve, occurring in the same subsection the words "or in the Sudan."

2. That Article 75 of the articles of association of the company be altered by striking out the words commencing "and every exercise of the power" down to the end of that article.

3. That article 81 be altered by striking out the words "or a person to be nominated as hereinafter provided by the Egyptian Delta Light Railways, Ltd.'

4. That Article 85 be altered by striking out the words "provided that this prohibition shall not apply to any contract, transaction with the Egyptian Delta Light Railways, Ltd."

5. That Article 86 be altered by striking out all words after the words "shall be vacant. 6. That Article 87 be altered by striking out the words "save as aforesaid" appearing

BULLETIN DE LA BOURSE

(Aujourd'hui à midi et demie.)

Marché toujours nul. Les Héliopolis qui avaient donné lieu à un certain mouvement hier et avant-hier semblent ne plus exister. On part des valeurs, même dirigeantes. A peine pent-on constater q elques transactions clairemées en Agricole National Bank, Nungo vich Hotels, Delta Land et Comptoir.

Le rapport des Delta Land, arrivé de Londres, est une déception. Il n'y a pas de dividende. Le bénéfice réalisé est estimé à £ 50,000.

L'Agricole est demandée à 9 11/16 et la National à 25 7/8. Il y a hausse de 1/16 des Nungovich Hotels

La Banque d'Orient fléchit à 131 1/2.

La tendance générale demeure iudécise.

CANAL MARITIME

La dernière question qui reste à examiner est celle des communications entre les quais de la Douane et ceux du Gabbari. Il est évident que les deux ponts étroits établis sur les écluses, l'un pour le charroi des particuliers et l'autre pour le chemin de fer, sont insuffisants.

M. Dietrich Bay propose d'y porter remède en élargissant le pont tournant du chemin de fer, de façon à pouvoir y installer une double vois, on en constraisant un autre pont du mê me type. On pourrait encore agrandir la chadssé des ponts levis en y ménageant sur les côté des trottoirs un encorbellement pour les pié tons. Lo projet de l'ingénieur du port consis tant à faire passer par le canal maritime les barques qui vont à la mere à condemner les écluses de Minet-el-Bassal, ajoute M. Die trich, no ferait qu'augmenter l'encombrement, en obligeant les barques à stationner de heures entières aux abords de l'écluse et du pont du chemin de ter, pour attendre l'ouver ture du pont. D'après une enquête municipale on paut estimer à 67 environ le nombre de barques qui entrent journellement dans le port flavial d'Alexandrie.

Examinons maintenant la question du pas sage des trains sur la ligne de Gabbari et le pont projeté du chemin de fer sur le canel maritime au sud du jardin Nouzha. Ici nous avons une moyenne de 24 trains par jour avec des perspectives d'augmentation progressive Avec un tel encombrement, il semble diffi ile à notre ingénieur municipal que dans l'intervalle d'un train à un autre on trouve le temps de faire passer les barques à travers de pont et les écluses projetées, sans causer des retards préjudiciables à l'administration des chemins de fer. Il propose donc de rechercher une meilleure solution dans le cas où l'on insisterait sur la création d'un canal maritime, solution qui allègerait considérablement le trafic si intense de Minat-el-Bassal, et dirigerait sur une autre voie que le Mahmoudieh les transports de bois ou de charbon destinés à l'intériour du pays. Voici cette solution, tonjours d'après M.

Dietrich

Elle consiste tout simplement à créer à travers le lac Maréotis entre les jardins du Gabbari et le Mariout un large chenal relié à la mer de chaque côté par des pilotis servant il indiquer la direction des bateaux. Aux deux extrémités de ce chenal, dragué à 3 mètres sous l'eau, deux éclases seront construites, l'une au nord pour communiquer avec le canal maritime et le port et l'autre au sud pour rejoindre le canal Nubarieh qui devra être élargi et prolongé jusqu'au lac. Les barques pourront sinsi venir par le canal Khatatha au canal Nubarieh et se rendre au canal maritime par le Mariout. Le retour dans l'intérieur s'elfectuera par la même voie. Pour le Béhéra le trafic aura lieu par les écluses de Minet el Bassal et le canal Mahmoudieh.

Grace à ce moyen, l'on évitera et la cons truction du pout sous le chemin de fer du Gabbari, et la surélévation du remblai du chemin de fer estimé à 4 mètres de hauteur, travail compliqué et fort coûteux.

Mais, objecters ton, ce chenal porters en trave aux travaux d'épuisement du lac. Pas le moins du monde, car ce chenal n'aura pas de digues de retenue et laissera les eaux s'écouler librement vers les pompes du Mex.

Elargi et prolongé, le Nubarieh sera navi gable et l'écluse que l'on installera à son entrée dans le lac servira à retenir les saux dont le surplus sera envoyé sur les terrains incultes du Mariout, dont une vaste étendue sera de la sorte transformée en plaines fertiles.

De plus l'utilisation du Nubarieh aure l'avantage pendant l'étiage du Nil de recouroir le trajet entre Chalanga et Alexandrie de plus de 6 kilomètres ; pendant les hautes eaux du Nil, période on les barques prennent le fleuve pour se rendre au Mahmoudié, cette différence en moins sera d'environ 70 kilomè tres au profit du Nubarieh.

Comme conclusion, M. D'etrich Bey affirme que l'élargissement du Canal Mahmondieh à Kafr el Achri, l'amélioration des quais actuels et leur prolongement jusqu'à la rue Raghel Pacha sufficent longtemps encore au trafic des marchandises & Minet el Bissal, et cela d'an tant plus que les entrepôts de bois seron prochainement transportes au Gabbari. Dan le cas où ce trafis prendrait tout-à coup des proportions inattendues, on pourrait toujours araser le quartier de Katr el Achri et oréer i cet endroit un port fl wial.

Ces améliorations effectuées, les quais de Minet-dl-Bissal auront un développement de 7600 motres, tandis que ceux prévus par l'in génieur en chef du port n'en auront que 5600 les berges qui lougent le canal maritime projete par lui au sud de la voie ferré etant inutilisa bles à cause des bas fonds créés par les rem blais du chemin de fer et les digues du cans en question. Sur une aussi longue étendue de quais on pourra assurer la place de 3040 bar ques, au lieu qu'avec le projet du canal mari time des Ports et Pasres, on ne pourra er loger que 2240.

RECTIFICATION

Au sejet du rapport de M. Dietrich Bey sur la construction d'un canal maritime, dont nous avons publié avant-hier un aperçu, nous som mes on ne peut plus surpris de trouver chez un de nos confrères locaux une appréciation dia métralement opposée à la vérité.

M. Dietrich Bey n'est nullement partisan du canal maritime, comme l'affirme notre confière son rapport est au contraire destiné à le combattre. Nous espérons que le dit confrère voudra bien rectifier lui même son assertion erronée.

Le ministère des finances vient de transmettre aux membres du conseil d'administration de la National Bank of Egypt une note confidentielle exposant les conditions aux quelles le gouvernement khédivial serait dis posé à approuver la transformation en Banque l'Etat de cet établissement de crédit.

Ces conditions seraient jugées très avanta genses et on ne doute pas qu'elles seront cceptées dans la prochaine réunion du conseil d'administration. Elles permettraient, entre autres, à la Banque de faire usage de son fonds de réserve, qui serait remplacé par les disponibilités de l'Etat, dont une partie considérable tout au moins serait mise, sans intérêt, à la disposition de la réserve de la Banque.

American Futures .- The market this week has been more active, but prices have again experienced a considerable decline. To day's losing values are 21 @ 23 points below those of last Thursday. The decline is due to state Bulls realising to Bear manipulation, and to dissemination of highly favourable forecasts of the crop ; in fact the cotton world has become extremely Bearish. We are only now half way through the month of August with many critical periods to be passed through, but at the moment no thought is given to this, it is a regular Bear raid. At the moment it is difficult to see where any relief is to come from, but some day it will come, in the nature of things, as it it generally does and without any warning.

TO-DAY'S TELEGRAMS

BULGARIA AND TURKEY

THE ANTI-HELLENIC MOVEMENT.

THE PORTE SNUBBED.

Soria, August 22. In reply to the Turkish Note, complaining of the anti-Greek agitation in Bulgaria, the Government says that the Porte is not entitled to interfere in the internal affairs of the Principality. The Greek persecutions are merely the effect of anti-Bulgarian atrocities in Mace donia. The Porte had better first restore order in her own country.

Sofia, August 22. The Port has addressed a Note to Bulgaria expressing its discontent in regard to the anti-Hellenic movement.

The Bulgarian Government has replied that it considered the Note as null and void, because the Porte has no right to meddle with the internal affairs of Bulgaria.

CONSTITUTION FOR CHINA.

CONFERENCE TO BE SUMMONED

PEKING, August 22

The Dowager-Empress is preparing plans for the summoning of a Conference of officials and viceroys in order to discuss the adoption of a Constitution. The Commissioners who have returned from their tour abroad recommend a gradual change leading up to a constitutional Government. (Reuter)

PIRACY IN CANTONESE WATERS.

THE "TIMES" WARNING.

LONDON, August 22. The "Times" complains of the increase of

piracy in Cantonese waters and the growing indifference of the Chinese authorities to the rights of Europeans. It emphasizes the incapacity of the vicercy, and warns China that unless she suppresses the piracy Great Britain may undertake the work herself. (Reuter)

CUBAN INSURRECTION.

REPULSE OF INSURGENTS.

New York, August 22. Gomez, the famous leader who figured so prominently in the American War, has joined the rising in Cubs. Inhabitants in the country districts are flocking into Havana. (Reuter)

HAVANA, August 22 610 arrests have been made here during the past three days, on the charge of conspiracy. Another fight took place near here yesterday.

The insurgents were repulsed.

Gomez has been arrested on his ranch. (R.)

LONDON, August 22. Middlesex beat Lancashire by 31 runs. York shire beat Surrey by 102 runs. Sussex beat Notts by 8 wickets. Essex beat Derbyshire by 8 wicket. The match between Laices tershire and Warwickshire was drawn. (R.

THE CHILIAN EARTHQUAKE.

MORE TALES OF DISASTER.

New York, August 22. The latest careful estimate places the death-roll due to the Chilian earthquake at certainly several thousands. Each day brings news of towns and villages destroyed.

The authorities at Santiago are building

huts for 30,000 refugees and have ordered ships at Valparaiso to remove the houseless population.

Naval detachments are landing at Va'paraiso and assisting to maintain order and clear up the wreckage. The British Consulate has been destroyed and the Consul injured in the leg.

EGYPT'S POSITION.

GERMAN INTERFERENCE.

ENGLISH PRESS OPINION.

The article in the "Deutsche Revue," of which a summary appeared in our issue of Tuesday last, induces the "Times" to make the following reflections :-

The attempt to construe political claims of any kind in Egypt upon the strength of commercial and economic interests is even more questionable than in the case of Morocco. Germany's share represents only a small fraction of the to al trade of Egypt and merely an infinitesimal fraction of the value of her own total exports and imports. The number of German subjects in Egypt amounts to just a little over 1 per cent. of the whole foreign population. Moreover, the value both of Gernan exports and imports to and from Egypt considerably declined during 1905, as compared predecessors. Notwithstanding that the holiday with the year before. To urge the extent of-German interests in the Suez Canal in con nexion with Egypt is not to the point, while to carry out the threat which has ignorantly been made in one quarter and to revoke the German assent to the decree of 1904 with

regard to the Public Debt, would place Germany in a false position. sprung are perhaps worth examination. The 883 but have now dropped back a little to results of the Morocco campaign were hardly as results of the Morocco campaign were hardly as 88. Colonial loans are coming into favour satisfactory as Germany from her point of view and substantial advances have been noted, could have desired. The further evidence of harmony between the Mediterranean Powers which was exhibited by the Abyssinian Railway points. Australian issues are in demand, agreement has produced anything but a soothing effect in the courtry. If English, French, prosper and Italian should come to be established as wealth. the official languages in Egypt this arrangement would merely be symbolical of a position in the Mediterranean to which G rmany can offer no parallel and lay no claim. The chief consideration, however, which appears to have weighed tion, however, which appears to have weighed with the authors of the present agitation is the future of the Bagdad Railway. German writers are fond of protesting that the whole of the necessary capital has been found and that the necessary capital has been found and that Germany is perfectly independent of foreign co-operation or foreign opposition. As Sir Edward Grey recently pointed out, that is a German affair. If Germany desires assistance from outside the question of participation will no doubt be considered. But in spite of this vaunted self-st fliciency, it is evident that the d fficulties which have been encountered in connexion with the proposed increase in the Tur-kish Customs and the incontestable position of Great Britain in the Persian Gulf have aroused auxiety for the prospects of the railway. manner in which the attitude of the British Ambassador at Constantinople with regard to the Customs questions has been criticized in the Press within a few hours of a corference of the diplomatic representatives of the Powershas a savour and meaning of its own. The various difficulties, therefore, which surround the completion of the Baghdad Railway seem to have inspired the idea of imputing to Great Britain a desire to annex Egypt, simply for the purpose of propounding a one sided bargain. In order to compel acquiescence the threat of inwhole agitation seems to have leen designed as a trap, yet after Sir Edward Grey's plain statement with regard both to Egypt and the Baghdad

MONEY AND SHARE MARKET.

(FROM OUR FINANCIAL CORRESPONDENT).

London, August 17. The Money Market.

Notwithstanding a downward tendency in foreign exchange the money market continues easy and even weak. For 60-day bills scarcely 3 per cent. can be got, which reflects the gene ral opinion that for some time at any rate no rise in money is likely. The Bank position is excellent. Coin is already returning from the country, and with this and about half a million from abroad and a contraction of the note circulation of £426,000, there is an addition to reserve of £1,147,000. This makes the proportion of each to liabilities 50 per cent. The total reserve is in fact the highest for ten years at this period of the year.

Silver. The market for silver seems likely to rise The United States have purchased 100,000 oza, and India, contrary to expectation, is coming in for considerable supplies. Egypt has purchased a considerable amount recently. is probable that with the present short supply in London and the prospect of a steady demand of about 500,000 oz a for America yearly which has now to be added to the usual demands the price will go higher. The Egyptian Government may be congratulated upon buy-ing at the right moment. The price to-day is 301d. but we should not be surprised to see it

up 1d. next week. The Stock Markets,

The nineteen day account just ended has failed to justify the evil reputation of its season is at its height, business has improved, and an increase in values has been noted all round. Contrary to expectation the dissolution of the Doma by the Tsar has been taken lying down, and the feared general uprising has not come about, the result being an inclination to buy Russian securities. Giltdermany in a false position.

The motives from which this agitation has during the past week and Consols have touched Johannesburg Fours have advanced 3 points and Spanish and Turks have gained 1 to 2 consistent with the evidence of the increased prosperity of the States of the Common-

> Home Rails. The feature of the week has been Home Rails. The excellent half yearly returns, just published, have had a good effect erns are favoured, being quoted at 1413, their traffic returns for last week being distinctly favourable, showing an increase of £.0,000. Hull and Barnsleys are exceptionally strong with a sharp rise to 4°. The report of the "District" is anything but favourable, and a huge deficit for the half-year has to be met. This unfavourable report does not seem to have had a great effect on the market and confidence s:ems to be felt that Sir George Gibb will bring this line on a profit-earning basis.

Americans.

Yankee Railways continue to receive support, and prices have advanced generally. Union and Southern Pacifics are the feature on dividend prospects. Southern Pacifics are quoted at 84 %, and a dividend declared on this stock should have a beneficial effect on Unions, as the latter is the largest holder of Southern Pacific shares. Unions are now quoted $166\frac{7}{8}$.

Canadians

Canadian Pacifics show a recovery. A bonus has been anticipated, but no statement was magnificently illuminated at night. The transional investigation into Egyptian affairs was been anticipated, for no statement would be welcome. Crand St. Mark and around the warships. (Feuter) dissatisfaction on the part of France. The Trunks continue in decided favour, the thirds Guinness's T.B.HALL&C? Bass's Thurs. 2 receiving support at 69,

Egyptians.

Although prices do not close quite at the best, there is a good tone in Egyptians and some business is being done. National Bark of Egypt after being up to 268 strong buyers close a good deal easier at 26. Agricultural Banks are also down from the best at 9 18. There is absolutely no enquiry for Daira Sanieb, and the price is now only 163 and the

Delta Pref. (be ver) have been bid for up to 117, but close 113. Delta Land and Investont are boyers at 31, but no sellers about. Khedivial Mail are once more in strong demand from Egypt round about 34s, but there are hardly any shares on this side, so the price are is very misleading, and it any were offered at 35s, or even 36°, they would probably be taken at once. Egyptian Estates have changed hands in large quantities at 1 15, but close sellers at this price. Daira Sugar remain unchanged at 51 and Union Foncière at 61. Bank of Abyssinia are a quite nominal market 11-1 alight at Sidi-Gaber station discount. There is no change in Land Bank

@ 85 Corporation of Western Egypt at 5 pm., and Salt & Soda at 1 18. Egyptian Markets close at 14, and Bark of Roumania

Mining.

One of the greatest surprises of the account has been the interest displayed in Kaffirs. At this season of the year dealers are more to take holidays than to think of opening fresh business. Paris has been a buyer and professional bidding has helped to maintain prices, and it is hoped that if sufficient interest can be taken in this market until after the holidays the public may be induced to come in, and the condition of things restored to their former level. The leading Kaffirs show gains, and any shares on offer are generally snapped up. Rand Mines have improved to 6 17/32, and after easing off a little have further strengthened to 619/32. East Rands have hardened to 41, and Gold Fields have been in good demand at 4 13/32.

Egyptian mining shares have benefited by the improved tone of other markets and a rise has been noted in some of the principal issues. United Africans Explorations continue in request and have turther hardened 3/32 to 1½. Nile Valleys have risen to 7s. and are a firm market. "Mummies," after rising to 4/9, have had a slight relapse, and are now quoted at 4/6.

The improvement in the iron and steel trade has at last made itself felt in the stock markets. Vickers have continued in strong demand and a further rise to 51/9 has been the result. The Steel Company of Scotland have announced a dividend, 71 per cent. being recommended against 5 per cent, for the previous year and 21 per cent for each of the three preceding years; £ 25,000 is to be placed to the reserve, as compared with £5,000.

Sewing Cottons have been strongly supported, rising to 28/3. Fine Spinners have improved to 26/9, but Calico Printers have eased off to 14/ on the announcement of the dividend of 4 per cent., although the market expected 5 %.
Although the profits of the company have

been sufficient to pay this latter, they have adopted the sounder basis of fluance in order to retain a substantial sum, as it is necessary for their ordinary trading purposes.

The wind was very fresh and gusty from the N. N. W., which perhaps accounted for most of the boats getting very wet, and the Anne Marie capsizing and turning turtle altogether. Her three occupants, however, managed to sit quietly on the upturned bottom of the boat as if it were an every-day occurrence until the police boat took them in tow. The Nanine was disqualified for pinching the Tier el Mina rather too tightly round the finishing buoy and causing the Tier el Mina to foul the buoy. The Masr and Shamrock got rather "tied up in a knot" close to Gabbari buoy, which en ied in the Shamrock having her mainsail ripped up. The committee decided that the Shamrock was in fault.

The We Two and Madeleine have tied in Class I. for the monthly prizs, each of them having scored 12 points. The final will be sailed off to morrow at about 3 p.m.

The Gumrook carried off the monthly prize

in Class II. The Ananké, the new yacht of Mr. J. Chini,

started on rating in Class II., and romped home an easy first. She appears to be a very fine boat; she arrived from Genoa on Sunday With reference to the We Two carrying off

part of one of the mark flags on the top of her mast last week, for which she was disqualified, as several of the club's new members do not know the exact wording of the rule applying to the same, it is given herewith : "All boats on rounding a mark shall not be disqualified on touching either the flag

or flag pole, unless they carry it away, but "they must not touch the mark boat or mark buoy, under any circumstances. As previously announced, the prizes for next week will be a cup in each class for which a new handicap will be made. The cups are kindly given by the Sporting Club.
